Epidemiology of Type 2 Diabetes in South Asians: Lessons Learnt Over 50 Years

Dr. V. Mohan

Chairperson of Dr. Mohan's Diabetes
Specialities Centre

Thursday, September 26, 2024

12:00–1:00pm

Countway Library

Minot Room (5th Floor)

The DBMI Open Insights Seminars are occasional research talks related to the mission of the Department of Biomedical Informatics. This includes themes such as:

- Provisioning big data to the scientific community
- Getting the big picture on human health
- Learning from each patient
- Advancing basic science with data science
- Understanding disease beyond heredity: environmental impact
- Instrumenting the health enterprise for discovery and intervention
